CUSTOMER COVID 19 PROCEDURES FOR RE OPENING

When we re-open to the public, it is important to keep both ourselves and our families safe but the safety of you, as customers, must be at the forefront of our business.

We will need to work in line with the current government guidance and we will ensure to monitor this as it changes.

I have assessed the business and the risks and have put the following control measures in place, which I require you to comply with as customers of the business.
